- 16.10 Open Coffee
- 16.10 ALBATROSS CASES FROM THE AUDIENCE
Moderators: S. Bottero, A. Ghidini
- 17.10 Closure
S. Bottero, A. Ghidini

The idea of a new “formula” concerning our annual meeting on pediatric airways is born as a natural consequence of five national courses and two international ones, thanks to the collaboration and friendship between the ENT Department of University of Modena and Reggio-Emilia and the Airway Surgery Unit of Bambino Gesù Children Hospital of Rome. In the last seven years we were able to bring new ideas into the field of pediatric airway surgery in Italy and now we are ready to organize a new and more modern concept of meeting thanks also to the presence of some of the most skillful and expert pediatric surgeons in the world. The meeting will be held alternatively one year in Rome the next in Modena. We hope that our efforts will be appreciated by everyone who is going to attend. Looking forward to meeting everyone in Rome next year.
