# Programme

Saturday, March 17, 2018

---

- 8.15            Registration
- Chair    *F.S.Iorio, F.Musumeci, G.Ruvolo, M.Chello, F.Miraldi, S.B.Albanese*
- 8:45            Workshop Presentation and Welcome to Participants  
*A.Carotti, N.Pirozzi, M.Raponi, R.Parrotto*
- 9:15            The Original Technique: Overview and Results  
*S.Ozaki*
- 9:45            Live Case presentation  
*G.Rinelli*
- 10:00          Trileaflet AV Reconstruction in the Adult patient: the Monzino Experience  
*G.Polvani*
- 10:30          Live Case  
Operating Room: *S.Ozaki, E.Cetrano, M.Trezzi*
- 12:15          Terumo Products Overview  
*L.Cezane*
- 12:30          Discussion
- 13:00          Lunch
- Chair    *A.Giamberti, R.De Paulis, M. Massetti, G.Mazzesi, R.Sinatra, G.Brancaccio*
- 14:00          Trileaflet AV Reconstruction in Children and Adolescents: OPBG Preliminary Experience  
*A.Carotti*
- 14:30          Trileaflet AV Reconstruction in Children and Adolescents: the GOSH Experience  
*M.Kostolny*
- 15:00          Trileaflet Aortic Valve Reconstruction: One Technique may suit both adults and children  
*D.Mazzitelli*
- 15:30          Discussion
- 16:00          Closing remarks  
*S.Ozaki, A.Carotti*

Nowadays, there is a growing interest in adult cardiac surgery regarding the neo-cuspidalization of the aortic valve according to the Ozaki technique.

Such interest is currently expanding also in the adolescent patient population and some cardiac surgeons have started to perform such operation in pediatric patients. Results are preliminary and the experiences need to be compared, bringing together the skills of both adult and pediatric field.

Purpose of this workshop is to compare these experiences, taking advantage of the presence of Professor Ozaki, inventor of the technique.

The event is supported by the

## GENERAL INFORMATION

---
